Week of May 13 – 17, 2019

What a year it has been! It's hard to believe that the school year is almost over. I hope you all can come to our End-of-the-Year Party at 11:30 a.m. on Thursday morning. School dismisses at noon that day, and this will be a fun time with a short program, seeing photos from the year, and enjoying food together.

This week in literature we learned about ants and their nests. Several children were excited to find ant hills out on the playground. We also learned about complete sentences and reviewed the initial, medial, and ending sounds of words.

In math we learned more about addition and subtraction, grouping by tens, and shapes to prepare us for first grade. We also learned how to tell time on the hour with analog clocks. In science we learned about how the sun warms the surface of the earth. We created shade structures for little paper monsters to learn about how shade can help us cool off in the summer heat. In fact, we learned about ways that animals cool off which can help us also.

In religion we learned more about the Holy Spirit, prayer, and baptism. We also continued our lessons on bullying.

In social studies we learned about maps and used some directional words to find things on the maps.

The librarian sent some notes homes requesting payment of fines for overdue books. Please pay these fines promptly.

On Wednesday, May 22, we will have a field day in the afternoon. There will be a cookout for lunch, and then at 12:30 the games and activities will begin. It is always a fun time.

I hope you have a wonderful summer!

Mrs. Nancy Hansen
