each purchase in 2021

-OR-

Spend \$500 or more in 2020

& get an **EXTRA 10% OFF**
each purchase in 2021

The Schoolbelles Loyalty Program

Frequently Asked Questions

If there are no numbers to remember or cards to keep track of, how do I use my discount, or make sure that my purchases count toward next year's discount? Schoolbelles Loyalty Program discounts will be earned and redeemed based on email address. Verify that we have the correct one on file when you shop in-store, over the phone, through your school or on our website.

What happens if my family has made more than one account, how will we know which one to use? If a household has made multiple accounts with the same email address over the years, Schoolbelles will automatically combine the sales to qualify you and will let you know which customer number will hold the discount. However, if a household has made multiple accounts, with multiple email addresses, and uses the same street address, sales will not be combined to qualify, and each email address will receive their own discount.

How long will I be able to use my discount? Each year's purchase totals will be used to determine the next year's discount. So purchases made in 2020 will qualify you for a discount in 2021, which will be available for purchases made in 2021. In 2022, your loyalty program discount level will be determined by 2021 purchases.

Can I use my Loyalty Program discount on sale items?

Your earned discount is applied in addition to any sales we may have, so it is an EXTRA 5% or an EXTRA 10% off any purchase.
